Description:

POC TOM MCMANUS 636-519-0814

tom@technosmarts.com

LGO DSP Market Business Analyst

Description of Responsibilities:

- + Managing the DSP support function for Demand Planning and Heritage/Legacy systems, with primary contact with the Demand planning business team and will have management responsibility for 1 technical analyst.
- + Responsible for communication with Globe centre of excellence, Stream Lead, stream members and Operations Planning on support and new requirements in the functional area of Demand Planning, including extensive Heritage/Legacy integration with SAS (CPOP-heritage forecasting application)
- + Provide direction, requirements definition and priorities to Technical Analyst (direct report)

Skills:

- + Strong interpersonal/communication skills
- + People management/coordination skills
- + Collaboration/team player
- + Ability to learn and apply concepts quickly
- + Background in Supply chain
- + Comfortable with technical design and process maps.
- + Experience with Demand Planning application/ERP system
- + APICS CSCP certification would be desirable
- + Knowledge of SQL would be desirable
- + SAP APO module * specifically Demand Planning Interfaces with Heritage/Legacy systems.
- + Direct SAP knowledge is a “nice to have” but not required. We are more interested in getting a functional analyst that understands the Demand Planning process and is able to work well with end users.
- + Having experience with a DP application, Whether SAP or not, is required, but not only SAP. So, we will accept candidates that do not have SAP, but they need to have worked with a similar Demand Planning Application.

Must have:

- ✚ People management Experience/coordination skills.
- ✚ Strong interpersonal/communication skills.
- ✚ Knowledge of Supply chain planning processes and industry standard practices
- ✚ Knowledge of IT architecture and process maps.
